I wanted to make a career in share market, I was not sure how can a fresher become an expert. I registered for the basic program and then shifted to Registered Research Analyst. -Raj Kumawat

After completing MBA, I wanted to work in a broking firm but not in sales. I was inclined about research analyst job. I joined the program and informed RISE institute about my career goal. Immediately after completion of my program I got the job with a broking firm in my city. Thank you RISE for this support and guidance.

-Deepak Singh

I was trading market since last 3 years. I looked at a lot of youtube videos for guidance which I thought are interesting and legit. I accidentally enquired at RISE about the courses available with them. I found it interesting and joined this course. I am surprised that so much wrong information is floating on youtube, investing in market is easy if you set the scale right. I am happy that I joined this program, I believe every trader should invest in this knowledge before investing in markets.
